PROCEDURES

Hazardous Manual Tasks

The *Hazardous Manual Tasks toolkit* and *Hazardous manual tasks guidelines for firefighters, administrative and trade workers* have been published on the intranet.

The toolkit ensures FRNSW is meeting the requirements of Work Health & Safety legislation, particularly the Code of Practice for Hazardous Manual Tasks, by providing:

- guidelines that provide practical guidance for employees on how to minimise risk of musculoskeletal disorders (MSDs) associated with hazardous manual tasks
- direction on the use of FRNSW hazardous manual task educational resources, both induction-based and periodic training, for: permanent and retained firefighters; administrative and trade workers; Community Fire Units.

The following In Orders have been rescinded, with the Hazardous Manual Tasks guidelines replacing their requirement:

- 1992/27 Manual Handling
- 1999/21 Team Lifting

The Hazardous manual tasks guidelines apply to all FRNSW firefighters, administrative and trades staff.

- transport of FRNSW personnel emergency and non emergency situations
- contact and use of the Ambulance Service of NSW.

The following In Orders have been rescinded:

- In Order 2012-6 - *Workers requiring medical assistance and transportation procedure*
