## PROCEDURES

### Major Structure Collapse Sub Plan to the Major Incident Management Plan

FRNSW's [Major Incident Management Plan](#) (MIMP) ensures that FRNSW provides effective, coordinated response to major incidents in NSW in support of the [State Emergency Management Plan](#) (EMPLAN).

Sub plans to the MIMP detail requirements for dealing with specific types of incidents and should be read in conjunction with the MIMP and the sub plans to EMPLAN.

The following new sub plan to the MIMP has been published on the intranet:

- [Major Structure Collapse Sub Plan](#)

#### Key points

The purpose of the *Major Structure Collapse Sub Plan* is to:

- Ensure that FRNSW provides an effective response to major structure collapses in NSW under the coordination of the Emergency Operations Controller.
- Ensure FRNSW meets its obligations under the NSW [Major Structure Collapse Sub Plan](#) to EMPLAN
- Set the context for FRNSW input into Regional and Local Emergency Plans.

#### Toolkit

FRNSW's MIMP, sub plans and supporting plans are available on the [Major Incident Management Plans](#) toolkit on the intranet.

#### Who needs to read the plan?

This plan needs to be read by all staff involved in planning for and responding to major incidents.

#### Rescindments

This Sub Plan rescinds:

- *Major incident management plan – USAR sub-plan* (Version 101, 21 March 2003)
- In Orders 2001-04, *Urban search and rescue*
