New or redesigned items include:

- Short and long sleeve dress uniform shirts
- Dress uniform skirt or trousers
- Galatea
- Necktie
- Maternity shirt
- Dress shoes or court shoes
- Mess dress trousers, skirt or dress
- Mess dress jacket.

Ordered items

Standard size items that have been ordered by firefighters will be delivered to fire stations and other FRNSW locations commencing 28 April 2017.

Court shoes that have been ordered will be delivered before 30 June 2017. Some neckties will be delivered commencing 28 April, with the remainder shipped within two weeks.

As soon as items are received and before removing the manufacturer's tags, firefighters should check the correct fit. If there is a problem with fit, contact the Procurement Help Desk on (02) 9742 7444, or email ProcurementHelpDesk@fire.nsw.gov.au.

Ongoing and replacement issue

All female dress uniform items will be available for ordering on ESCAT in the second week of May. These items will be available as replacement issue for existing uniform. Initial issue and service life replacement numbers should not be exceeded unless with the approval of managers or Zone Commanders.

Who needs to read this?

This notice must be read by all firefighters, and by all admin staff who may be involved in the issue of dress uniform to firefighters.

Further information

For more information, see the [Supply of personal issue uniform and personal protective equipment](#) procedure on the [Publications](#) page and the [Uniforms and PPC](#) toolkit. The [list of initial issue and replacement issue items of uniform and PPE](#) describes initial issue entitlements and service life estimate ordering restrictions.

More information about female duty wear will be published when those items are available.

Return of Drager SCBA airsets

The rollout of new MSA SCBA airsets is nearing completion.

Once your station has been authorised by your Zone Commander to switch over to the new MSA SCBA sets, you will need to return Drager SCBA sets to Equipment Logistics Hazmat.

When unpacking MSA SCBA sets, be careful with the boxes as you will reuse them to return old Drager SCBA sets to ELH. The dimensions of the box are preset in the courier's despatch system.

When you are ready to return all Drager SCBA sets at your station, pack the old sets in the MSA boxes.

Use [Work instruction – Returning Drager SCBA to Equipment Logistics Hazmat](#) to arrange for the courier to collect the Drager airsets. This will be the courier used by the contractor MSA, and not the usual FRNSW courier.

For more information, refer to the [SCBA](#) toolkit.

Enquiries

Support is available from Equipment Logistics Hazmat on (02) 9709 4335.
