## TRAINING

### 2022 Urban Search and Rescue (USAR) Category 2 Rescue Technicians' course

FRNSW has a responsibility to maintain USAR Rescue Technicians (Cat 2) capable of meeting our obligation as an INSARAG classified heavy rescue team to deploy internationally to disasters.

USAR involves the coordinated and standardised locating, extricating, and the initial stabilisation of people trapped in a confined space or under debris due to a sudden-onset large-scale structural collapse. This collapse can occur due to disasters, landslides, accidents, or deliberate actions. The goal of search and rescue operations is to rescue the greatest number of trapped people in the shortest amount of time, while minimising the risk to rescuers.

A 4 week off-shift USAR Category 2 Rescue Technician course is scheduled beginning 28 March 2022 at the FRNSW Emergency Services Academy, Orchard Hills.

Sixteen participants will be selected to attend the course.

#### Mandatory requirements

Participants must be a permanent, currently qualified, rescue operator and must live within 2 hours of the FRNSW Emergency Service Academy, Orchard Hills.

#### Applications

Please email [DARTTraining@fire.nsw.gov.au](mailto:DARTTraining@fire.nsw.gov.au) to request an application form or if you have any questions regarding this training course.

Further details on the selection process, including two targeted questions, and your commitment to the course will be provided when you request the application form.

To attend the 4-week course your application must be supported by your Duty Commander or Team Leader. Attendance is compulsory for the entire course.

After applications are received and as part of the selection process your Area Commander will be requested to endorse your participation on the course.

#### Closing date

Applications close 24 December 2021.
